

1956 DASH PANELS

Pg. 43, 2012

USA

lower portion goes behind dash like original
And does NOT require cutting dash

-**LED INDICATOR LIGHTS**, for turn signals and high beams
2 Green and 1 Red2626\$10.95 set
-**HARDWARE**, Polished Stainless .82622-56PS ..\$5.90 set
includes polished bolts for holes that are not used as well.

1956 CAST ALUMINUM DASH PANELS, SATIN FINISH

- 1956, Speedo 3 1/8" 2622-56\$95.00 ea.
- 1956, Speedo 3 3/8" 2622-56M\$115.00 ea.

Cast dash panels are not available polished at this time.

Looks neat painted to match dash, "disappears" and gauges "pop".
Good deals on SCRATCH & DENT and Discontinued Cast Panels

PLASTIC DASH INSERT, do your own thing. .2625-56NH. . \$56.50

MACHINE TURNED FACIA available again, comes with black plastic panel, choice of gauge hole sizes and locations, very nice work, great for different gauge configurations. Can be used with plastic, fiberglass or cast backing \$189.95 for the facia only, backing extra. special order

POLISHED FINISH, We have many cast panels that are "Scratch & Dent" which means the finish is not quite right, they are perfect for painting to match dash. Painted is a good look, the gauges "pop" out and panel seems to disappear into the dash. Both Satin (pebble) and Paintable can be painted. Cast Panels can be custom machined for most any gauge.

ALL BILLET ALUMINUM DASH, *our favorite*

Show Polished Billet Aluminum Eyebrow, Face can be Polished or Brushed finish. No Logo. 3 1/8" Speedo. Requires trimming of original dash.
High Dollar, High Quality, definite show piece.

-2638-6\$259.00

FIBERGLASS INSERT with BILLET ALUMINUM FACE:

Fiberglass insert can be painted to match dash, making billet aluminum face really show up. Each dash is custom machined to accept your choice of gauges, polished or brushed, shown here are just a few possibilities.

- Both pieces machined for gauges\$199.95 set
- Special order, need your gauge sizes and layout, see pictures below.
- Just the **Fiberglass blank insert** Do your own thing.\$99.95 ea.

Trim dash here

Most 1956 dash panels require cutting small dip out of original lower dashsheet metal. Dash panels are drilled for LED light and need hardware to fill dash holes
See Lights and Harware at top of this page
