Patch Panels, most all are actually a copy of a Ford patch, or, a 1956 truck. Panels may require some modification to work on a 1953-55. Rear cab corners do not have 1953-55 gas filler provision, Complete cowl piece has small dip at top inner area etc Patch panels are not covers, they replace the original sheet metal, however, like all repair pieces, they may not be exact duplicates of original. Even original cabs are not all exactly alike as they were not all stamped from the exact same dies. Watch for notes in this book and on our website for helpful hints on fit, etc
