

## ALTMAN'S EASY LATCH

Bear jaw rotary claw latch kit. Kit features contoured jam plates to match the door. Zinc plated to fight corrosion. Internal claws are case hardened and black oxide coated. Comes with everything for both doors. Latch plates, "bear jaw" rotary claw latches, templates, hardware, detailed instructions, striker plates, and stainless steel striker bolts. Designed by Terry Altman, best thing to happen to our old doors, manufactured here in the USA.

- Uses stock door handles and locks, see page 70

## SOLID SIDE WINDOWS

### SOLID SIDE WINDOW KITS

Kits include lower felt wipers for both sides of both doors, 96" channel runs that go all the way around glass, front brackets and holders to hold channels, glass seat tape and all hardware. Our glass is tempered so uses stock lower lift channel with stock or power regulators found on page -73 or power window kits also found on that page. Clean and easy installation. Choice of glass colors, Clear, Tinted or Smoke (shown)
