REAR CAB MOUNT ARM REPAIR PIECES
 • COMPLETE KIT..... 0708.....\$13.50 set
Includes 4 rubber & 4 steel bushings, use only if the arm hole is not egg shaped. Only repairs the original style arm.
 • Steel bushing only 1 only 0707-S\$3.65 ea
 • Rubber bushing only, set of 4 0707-R\$3.75 set

REAR CAB MOUNT ARM
 • **CAST ARM**..... 0704-CAST\$24.50 ea
Cast heavy duty arm, original F-100 arm was die bent steel with a small rubber bushing, it is not available. This fits the same, was used on larger trucks so has larger rubber bushing, bigger bushing, better ride.

• **SY'S ADJUSTABLE ARM**..... 0711\$59.00 ea
The answer for most cab arm problems. Easy installation and adjustment. If it looks like bed is crooked, probably is actually the back driver side cab. This arm straightens it right up. (Stock distance center to center 6 1/4") after 50+ years most cab mounting areas have some fatigue even if you cannot see it. Fine tune cab at any time with just a simple turn even on an assembled truck. You will not believe the difference in alignment of running boards and even front fenders this arm makes. sold Each since you may only need one side. Use stock bolts or rear bolt kit 80707-Z.....\$6.50 set

• **ADJUSTABLE ARM & BASE KIT** . 0712.....\$199.95 kit
Eliminates arms, brackets & bumpers, perfect if your brackets are gone or cab needs more side to side adjustment as well as up and down. Will fix even the worst misalignments. Nice hi tech look, about the same money as all the stuff it replaces. Not as easily adjustable as Sy's adjustable arms, especially on an assembled truck however. Powder coated black with red delron bushings replaces all stock rear mounting parts.
