Bed sides specially packaged additional \$50.00

CHOICES CHOICES CHOICES

Choices when considering truck beds are endless, and confusing. We offer the bed in a variety of styles, types & combinations. See the following pages for kits. Please call for help if needed. Remember, **kits are cheaper than individual pieces.** We can almost always build a kit that has exactly what you want.

Bed sides fit 1953 through 1972, only difference is location of fender mounting, 57-72 are higher, if your running boards are not lining up this could be the problem, Ford sold a lot of replacement bedsides with 57-72 mounting pattern during the 70's.

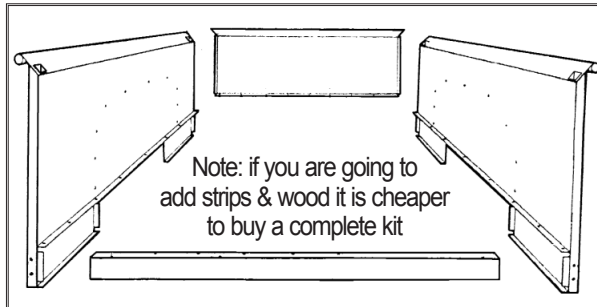

SHORT BED KITS, SEE THE NEXT 4 PAGES

We price match most any competitor. You may not see the bed a competitor advertises on these pages. After 35 years we have a pretty good idea of what goes together best, and list kits so you end up with the best combination. Also there are beds that Sy will not sell for various reasons. Keep in mind what you want to end up with, Polished stainless, Tailgates with hidden supports or latches, No bolts showing, etc. Please call, we can help and work up any combination you wish so you get what you want.

Please take a minute to look at our bed kits, which cover most all combinations, **it is cheaper to buy a kit than to mix and match.** Kits do not include tailgate as there are just too many choices, see tailgate kits.

BEDS ARE MADE OF 16 GAUGE SATIN COATED STEEL, UNLESS OTHERWISE NOTED.
we have a display with NO rust after 10 years of handling!!
