

No trimming, molded design, paint or cover. ABS is surprisingly easy to cover, just spray glue your choice of fabric, (tweeds are great) and smooth down into design. Looks professional and custom. Also comes without design so you can customize your way or just leave as is

## MOLDED ABS INTERIOR PIECES

Old style that used retainer is discontinued, we have some stock so if you are interested let us know. New styles are SO MUCH EASIER to install.

### NEW STYLE INSTALLS WITHOUT RUBBER RETAINER, CUTS INSTALL TIME FROM ONE DAY TO ONE HOUR

BLACK ABS PLASTIC PANELS are impossible to show nicely in pictures, but these are one of the best things to come along for our trucks. Makes doing your own interior a pleasure. Professional looking results at a fraction of the cost and the truck stays home. Covering any of these panels is surprisingly easy and we even have DVD instructions and tips. We are happy to send you free samples of fabrics and colors we stock or if you find something you like locally see page 7 for yardage requirements for each piece.
