We deal only with 1953-56 trucks so advise most common sizes of columns and drops. However tools like this help you determine what might best fit your application or needs.

# FLAMING RIVER COLUMNS

Very nice column, fits the truck great, short bell gives more cab room.

Use column drops on next page, the nicest ones are the 4655 & 4656, smooth rounded edges, nice polish.

Use U-joint with 1" double D, (round with 2 flat sides) for shaft.

## FLAMING RIVER COLUMNS

SHIFT AND TILT COLUMN, We offer this column as the shifter and tilt area is only 8 inches which allows the use of a 30 inch column, with less column sticking out in the cab. Includes Polished stainless shift arm, dress up kit, GM wiring with 4 1/4" connector. Shift indicator is attached, illuminated and has chrome housing. Real Nice Column. Nice shift indicator.
