LED, With Turn signals, Order by Color, also see pg 57
 12 lights, 1" White, Red, Amber2265-12.....\$6.95 ea

LED FLASHER, use with front & rear led's2921.....\$9.50 ea.

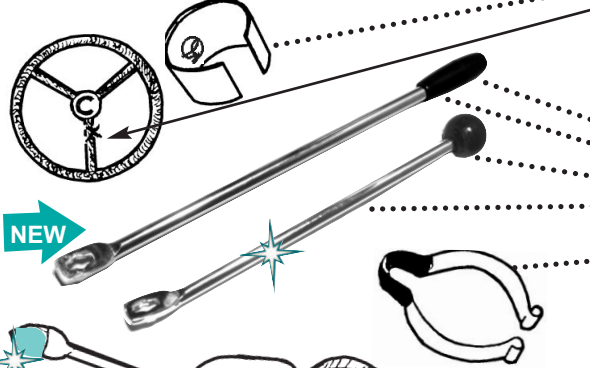

TOOL for removing bulbs, didn't think this worth it until I had two in a row and had to replace the entire pigtail82270-T.....\$15.00 ea.

HEADLIGHT CROSSOVER HARNESS3207.....\$25.00 ea.

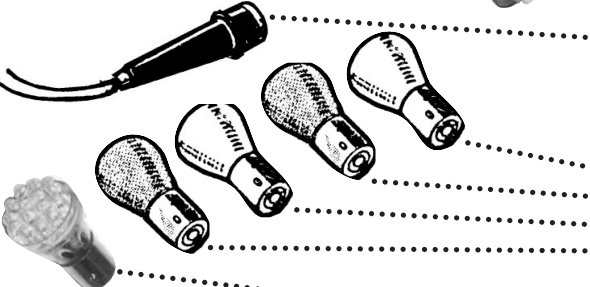

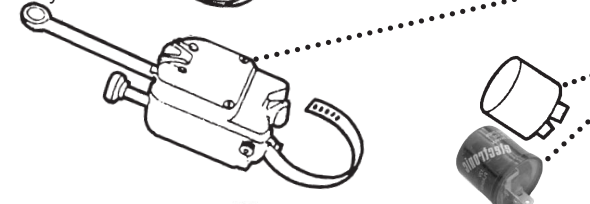

Wiring from fender across grille for headlights & park lights with turn signals, plugs into headlight and park light pigtail..

TAIL LIGHT HARNESS3208.....\$35.00 ea.

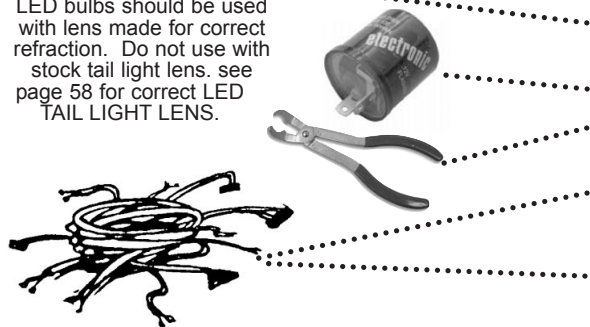

From main harness back to tail light pigtail, includes stop switch (2 RED wires, does not matter which is which) and turn signal connections.

Green light when turn signal on
 Red light when 4-way flasher on

LED bulbs should be used with lens made for correct refraction. Do not use with stock tail light lens. see page 58 for correct LED TAIL LIGHT LENS.

Helpful wiring harness when adding turn signals, do not order with our wiring harness, all are included.
