

# WIRING HARNESS

## CUSTOM 21 CIRCUIT KIT

### Our most popular custom harness!!

Choose from color coded wires or all black wires with white lettering. Easy to install, adapts to most steering columns, ignition key locations, or charging systems.

These kits use GXL 125 high temp cross linked polyethylene jacketed wire that is grease, oil, gas, and acid resistant. Each wire is labeled every 5" its entire length so checking a circuit is easy!

Radio, coil, dome light, backup/cruise, horn, cigarette lighter, fuel pump, ac/heat, radio, turn signal, horn, acc, wiper, gauges, hazard, fan, power window, power door locks, brake, headlights

All black .....	3260-EZ.....	\$225.00 ea
Color wires.....	3260-EZC .....	\$225.00 ea

## CUSTOM BUILT RON FRANCIS KITS

Built by Ron Francis Wire Works to Mid Fifty specs. Unique serial number and any modifications, engine changes and the like can be ordered custom made ready to fit. In rare case of trouble, a simple phone call can usually detect, and fix problem. 23 fused circuit panel and color coded wires with matching color instructions. Connects directly to stock switches so dash looks original, but behind dash and under hood, well, lets just say thats the only thing that is original.

Some neat Mid Fifty features are: wiring for built in anti-theft systems, choice of power accessories (window, radio) operating with ignition on or off. Front park lights will operate alone or with headlights like original. Front park lights are also turn signals in this and in all our other harnesses for safety, even though it was not original. Harnesses are set up for aftermarket steering columns (like Ididit).

Each kit includes: wiring for engine (note choices) alternator, distributor, neutral safety switch, starter, coil, stock ignition switch, turn signals, horn button, 4 way flashes, dimmer, headlights, tail lights, parking lights, third brake light provision just in case, horns, wiper, radio, all gauges and sending units, (note different gauge wiring choices). Accepts electronic fuel injection harness.

### Ford engine, with one wire alternator

Harness kit.....	3250-F .....	\$490.00 kit
------------------	--------------	--------------

### Ford engine w/ externally regulated alternator & electronic regulators

Harness kit.....	3251-F .....	\$490.00 kit
Add electronic ford regulator .....	3252-FR .....	\$40.00 kit

### Chevy engine, with standard gauge wiring and one wire alternator

Harness kit.....	3255-C.....	\$450.00 set
------------------	-------------	--------------

### Quick connect dash wiring

Add to any kit, allows disconnecting the entire instrument cluster at a single location, VERY NICE

For VDO gauges.....	3259-7 .....	\$79.95 ea
For other gauges .....	3259-5 .....	\$79.95 ea
