

POWER WINDOWS

Comes with extra "horizontal" frame

Most power window kits out there are universal, most use the same or comparable motors. We are only interested in the 1953-56 Ford truck however, so these are the ones we feel are best for that application. The things you need to consider are: which switches? If you want the window to go down without holding button, and if using solid sides windows

SWITCH CHOICES

I don't like the switches that normally come in power window kits, they have a little picture of a car window, and passenger side is backwards for heavens sake!! Therefore our power window kits are priced without switches, add switch kit of your choice below, includes & 3 switches

BLACK SWITCHES, ILLUMINATED, BMW STYLE

- Illuminated, set 1744-AR \$140.00 set
- Illuminated, one only..... 1744-A1 \$20.00 ea

BILLET OVAL SWITCHES

Billet switch sits in a billet frame, Oval no less! Building a Ford, right? No relay needed with remote controls

- Non-illuminated..... 1743-OV \$185.00 set
- Illuminated 1743-OLT \$236.50 set

BILLET RECTANGULAR

- Illuminated 1743-RLT \$218.00 set

CHROME, GM STYLE

High quality chrome toggle style

- Non-illuminated..... 1744-CH \$140.00 set

HANDLE SHAFT STYLE

Uses stock handle as switch, wiring diagram included. Both sides.

- China 1748 \$189.95 pr
- Made In USA 1748-USA \$250.00 pr
- Install bolts..... 81748 \$1.50 ea

Included, order only if you got switches elsewhere

POWER WINDOW CONVERSION KIT

Exceptionally smooth and quiet. Use with stock windows or solid side windows, 1956 or even curved 1953-55. Lots of power window kits out there, we carry a few different ones, however we like this one best so it is shown here. 3 Year warranty. Priced without switches, order choice of switches above

POWER WINDOW KITS

- With clamp lift 1740-E \$268.00 kit
- With channel lift 1740-EX \$268.50 kit

AUTO EXPRESS MODULE 1745-EX \$35.00 kit

Use with any switch set, runs driver window all the way down with touch of button just like today's cars

SUCTION CUPS Pair..... 1742-GH..... \$16.90 set

Holds window up while you work on the door.

POWER WINDOW INSTALL KIT

Kit includes heavy duty cross bars to hang motor on, correct spacers, hardware & instructions. Makes installation a snap. No power window kits have long or strong enough motor mounting bars, and finding correct metric bolts is a pain. Sy's kit is made to install 1740 power windows but works with most we have tried.

- Install kit does both sides 1737 \$38.50 kit
- Just the Metric bolts and spacers 81737 \$7.50 kit

POWER WINDOW REGULATORS

New power window regulators go right back in stock location. Mount up with stock bolts, and use stock window lifts. Too easy!! Order choice of switches above, handle shaft will not work. Can not be used with solid side windows as the regulator and motor are located under the vent window area.

- 1953-55, both sides 1742-5355 \$275.00 pr
- 1956, both sides 1742-56 \$275.00 pr
