

Note to Customer: This chrome bumper is the best on the market. There are others on the market, but they have rough edges and a small dent on each one of them. The brackets with this bumper have been included by the bumper manufacturer. There is a spot on the bumper bracket, at the bolt hole, this is due to how they had the bracket mounted in the fixture for chroming. We carry individual bumper brackets of better quality in chrome and polished stainless if you need them, but we provide this set of brackets with the bumper from the manufacturer as is. Thank you.
