Floor Filler pieces.

Shown is the 53-55 truck, the 56 has an extra piece between A1 and A3 (marked A2) We include this extra piece in all kits. If you have a 53-55 you can discard it or cut it up and use it in any extra impressions you might find.

Lay out your pieces first as shown, some are quite similar so identify them before peeling off the backing. Make sure the floor is clean and free of any old filler.
