

# TURN SIGNAL SWITCH 1953 - 1956

PART NUMBER  
**2916**  
**3208**  
PAGE NUMBER  
1 of 1

**#@\$!\*@#\$\$% INSTRUCTIONS**  
MID FIFTY F-100 PARTS 1-800-252-1956

## NOTES:

- 1..This switch shows correct wiring of Turn signals, it includes front and rear turn signals and brake lights.
- 2..Turn signal overrides Brake light switch when on, Red wire goes to either side of Stop light switch.
- 3..Power is coming *from* headlight switch *through* stop light switch.
- 4..Switch has correct Ford wire ends.(slightly larger than standard) Matching ends are included in #82916
- 5..Switch is mounted from underneath the steering bell with 2 #8-32 screws.
- 6..Some switches have bad threads in the mounting plate, they should be #8-32, tap them or force screw through before installing. Proper screws are included in #82916 install kit.

2918 CANCEL CLIP, note location. Install on bottom of steering wheel. Turn wheel upside down, with spokes at 10, 2, and 6 o'clock. There should be a small x on the 6 o'clock spoke. Install clip like a "C" with the opening facing right, as shown.

Use Our Tail light Harness with Turn signals if possible, colors are original Ford and match original turn signal switch.
