

Instructions for: **DOOR AND WINDOW HANDLE SHAFTS**
MID FIFTY F-100 PARTS 1-800-252-1956

PART NUMBER
**1090, 1090-E, 1100,
1101, 1102, 1103**

1956 shafts only go into the handle 5/8". Seems like it is not far enough but it is. The set screw then goes into the groove, holding the handle in place. If the shaft will not go into the handle, take a little emery cloth to it and make sure there is no debris in the handle. Unfortunately, handles are not always made perfectly.
